Subject: Veterinary health Certificate for export of porcine semen from Canada to India
- reg

Sir,

The undersigned is directed to refer to the letter dated 5th October 2017 from Mr. Nitin Verma, Counsellor Agriculture, Canadian High Commission, addressed to Joint Secretary (Trade), Department of Animal Husbandry, Dairying and Fisheries, Ministries of Agriculture and Farmers Welfare, Government of India on the subject mention above.

In the above context, it is to mention that the Veterinary health Certificate for export of porcine semen from Canada to India has been examined in the Department and found to be agreeable.

Yours faithfully

(Mrs. R. K. Beniwal)
Joint Director (Trade)

VETERINARY HEALTH CERTIFICATE
EXPORT OF PORCINE SEMEN TO INDIA

SECTION I - Origin

- i) Country of origin: CANADA
- ii) Competent Issuing Authority: Canadian Food Inspection Agency
Government of Canada
- iii) Name of Exporter: _____
- iv) Address: _____

- v) Name of Semen Production Centre: _____
- vi) Address: _____

- vii) Semen Production Centre Registration Number or Identification Code: _____
- viii) Place of Loading: _____

SECTION II - Destination

- i) Name of Consignee: _____

- Address: _____

- ii) Mode of Transport: _____

SECTION III - General Conditions

- 1.1 The donor boar and his near relatives are free from genetic defects.
- 1.2 The semen is from a progeny tested boar.

SECTION IV - Health Certification

I, the undersigned Official Veterinary Officer, duly authorized by the Government of Canada, hereby certify that after due enquiry and to the best of my knowledge and belief the following:

1. Canada is free from Aujeszky's disease, African swine fever and all serotypes of foot and mouth disease.
2. The centre is inspected, approved and supervised by the Canadian Food Inspection Agency (CFIA) and is under the direct supervision and control of a veterinary physician employed by the centre.
3. The donor boars were born and have been continually residing in Canada.
4. The donor boars have been inspected and found to have no clinical signs of brucellosis, foot and mouth disease, Aujeszky's disease, transmissible gastroenteritis, African swine fever, classical swine fever or porcine reproductive and respiratory syndrome (PRRS).
5. The donor boars have remained in isolation at the artificial insemination centre for a period of at least thirty (30) days before being tested to meet the standards tests with negative results as indicated below:

African Swine Fever - ELISA
 porcine brucellosis - BBAT, ELISA, FPA or CF

- iii) classical swine fever — NPLA, FAVN or ELISA
- iv) porcine respiratory and reproductive syndrome — ELISA or IFA
- v) transmissible gastroenteritis — ELISA or VN
- vi) Aujeszky's disease — ELISA

REFERENCE NUMBER: _____

Note: The India has indicated that diagnostic tests above are not necessary for countries where these diseases have not been known to occur. Hence diseases Canada is free from, according to standards of the World Organisation for Animal Health, have been struck out.

6. The semen has been obtained from donor boars with normal libido and it has been handled/processed in accordance with the provisions of the chapter "Collection and processing of Bovine, Small Ruminant and Porcine Semen" of the existing Terrestrial Animal Health Code.
7. The donor boars were clinically healthy and physiologically normal and have passed pre-entry tests as prescribed in the chapter "Collection and processing of Bovine, Small Ruminant and Porcine Semen" of the existing Terrestrial Animal Health Code within thirty (30) days prior to entry into isolation at the Artificial Insemination Centre.
8. The semen has been transported under hygienic conditions and the diluents used to extend the semen contain no pathogenic organisms and have been treated with antibiotics in accordance with the standards employed and approved in Canada.

**OWNERS DECLARATION REGARDING THE EXPORT OF PORCINE
SEMEN TO INDIA ON HEALTH CERTIFICATE HA 2400**

I, the undersigned owner of the donor boar who's semen has been collected for export to India on the attached health certificate, do hereby certify that I have knowledge of the matters stated herein, and do hereby declare:

- 1) The donor boar and its near relatives are free from genetic defects.
- 2) The semen is from progeny tested boars.
- 3) The semen has been collected from boars with normal libido.

Information regarding the owner of the boars:

Name - _____

Address - _____

Signature - _____ Date - _____
