Encl: as above

Your faithfully

(Dr. Tarun Kumar Singh)

Fisheries Research Investigation Officer

Copy for information to:

AC (Trade),DADF, Room No 490, Krishi Bhawan, New Delhi- 110001

III. Destination of the feed

The Prawn feed / Shrimp feed / Fish feed is to be dispatched from
: _____ (Place of dispatch) in Japan to
: _____ (Place of destination) in India by the following
means of transport:

Name of consignee and address at place of destination:

IV. Attestation

1. This is certified that:

- i) The feed has been manufactured at the feed manufacturing facility with implementation of risk management practices for feed production, including cleaning of facilities and manufacturing lines, prevention of cross contamination, and management of storage locations, which are described in the relevant Chapter of OIE Aquatic Animal Health Code
- ii) The feed has been examined for microbial parameters by drawing random samples, which show the following results:

Salmonella : absence in 25 g ; n=5, c=0, m=0, M=0

n=number of samples to be tested;

m= threshold value for the number of bacteria; the result is considered satisfactory if the number of bacteria in all samples does not exceed m;

M= maximum value for the number of bacteria, the results considered unsatisfactory if the number of bacteria in one or more samples is M or more; and

c= number of samples the bacterial count of which may be between m and M, the sample is being considered acceptable if the bacterial count of the other sample is m or less

2. The feed has been manufactured in accordance with Feed Safety Act, which stipulates that antimicrobial agents, steroids and pharmacologically active substances including the followings shall not be used in feed.

- 1) Chloramphenicol
- 2) Nitrofurans including Furalfadone, Furazolidone, Furfurylformamide, Nifuratel, Nifuroxime, Nifurprazine, Nitrofurantoin, Nitrofurazone
